

Publish your first shift replacement in 60 seconds.

The shortest guide possible. No course. Just the 3 steps, the 4 mistakes to avoid, and what happens after you click "Publish."

OUR GUARANTEE

No applications? Your credit is returned automatically.

If your posting does not attract any groomer, we return the credit to your account. Automatic, no paperwork, no request needed.

THE 3 STEPS

From your phone to your published posting.

You are at the salon, a groomer just called in sick, you have 10 minutes before your next appointment. Here is exactly what to do.

1

Log in 15 SECONDS

Open **touttoilettage.app** on your phone. Log in with your email. If this is your first time, you already have **1 free credit** in your account.

2

Click "Publish replacement" 30 SECONDS

Fill in the fields with as much info as possible: **date, hours, hourly rate or day package, animal types**. The more details you give, the better the groomers you attract.

3

Click "Publish" 5 SECONDS

Done. **Only one credit is used**. No matter how many groomers apply, no matter how long your posting stays online.

"We just launched and we built exactly what was missing in our industry. Publish your first shift replacement, and we take care of connecting Quebec's best groomers to your salon."

What makes the difference between 0 and 5 applications.

We looked at what works and what does not. Four details change everything.

● Be specific about compensation

Choose **hourly rate** OR **day package**, then enter a realistic number. Quebec groomers know what their time is worth. A precise amount attracts the right applications; a vague or low amount gets scrolled past.

● Check all animal types and specializations

You will find a full list: big dogs, small dogs, cats, difficult dogs, nordic breeds, feline grooming, hand stripping, and more.

Check everything that applies, not just the minimum. This helps groomers see in 2 seconds if the posting matches their strengths.

● Enter the real number of appointments

The **Appointments** field asks for a number. Put the real one. A groomer who knows there are 7 appointments arrives prepared. A groomer who arrives and finds 10 dogs never comes back. Honesty here builds loyalty with your replacements.

● Add maximum useful detail

Animal types, exact number of appointments, particularities (ex: an anxious dog, a specific breed cut), equipment available.

A groomer who knows the context accepts faster and with more confidence. This is what distinguishes a posting that stays empty from one that fills up.

BEFORE / AFTER

Two postings. Only one gets applications.

✗ DOES NOT WORK

"Need a groomer Saturday. Details after acceptance."

✓ WORKS

"Saturday May 3, 9am to 5pm. Hourly rate \$28. 6 appointments. Big dogs + small dogs. Minimum 1 year experience."
